

CURRICULUM AIMS

Our school curriculum is continually developing with staff and governors involved in identifying not only the needs but the aspirations for all our children. We have enhanced the delivery of the statutory national curriculum with a school curriculum, enriching pupils learning experiences and developing the whole child. At Sandbrook, we operate under a strong set of values, which permeate all aspects of our teaching as well as daily lives in school. The following values are not only explored explicitly within collective worship but are implicitly embedded within the routines and activities within our classrooms:

- Cooperation
- Respect
- Honesty/Truth
- Responsibility
- Perseverance and Positivity
- Tolerance
- Nurture and Love
- Enjoyment and Happiness
- Imagination and Creativity
- Uniqueness
- Empathy
- Aspiration

Through these values we aim for our children to have a strong sense of belonging, self and pride in school, caring for all who learn within it.
