

MODERN FOREIGN LANGUAGES AT **SANDBROOK**

At Sandbrook, the language that we teach in school in KS2 is French although we do encourage children to become aware of other languages and cultures. Our goal is to enthuse and inspire pupils to participate fully and develop a love of learning about modern foreign languages. Our children learn French from Year 3 onwards, through songs, games, speaking and writing the language. It is important that children learn about different cultures to broaden their understanding of the world.

A very useful website is <http://www.bbc.co.uk/learningzone/clips/>

This website helps bring your learning to life. It presents a series of interesting videoclips. If you use the index for the clips, you will find a section on French that covers a whole range of topics. Click on a topic that interests you and off you go!!

You could also try www.primarylanguages.org.uk where there is a section on useful resources for learning languages at primary level.
